The Problem: Untapped Skills

Unrecognised Skills

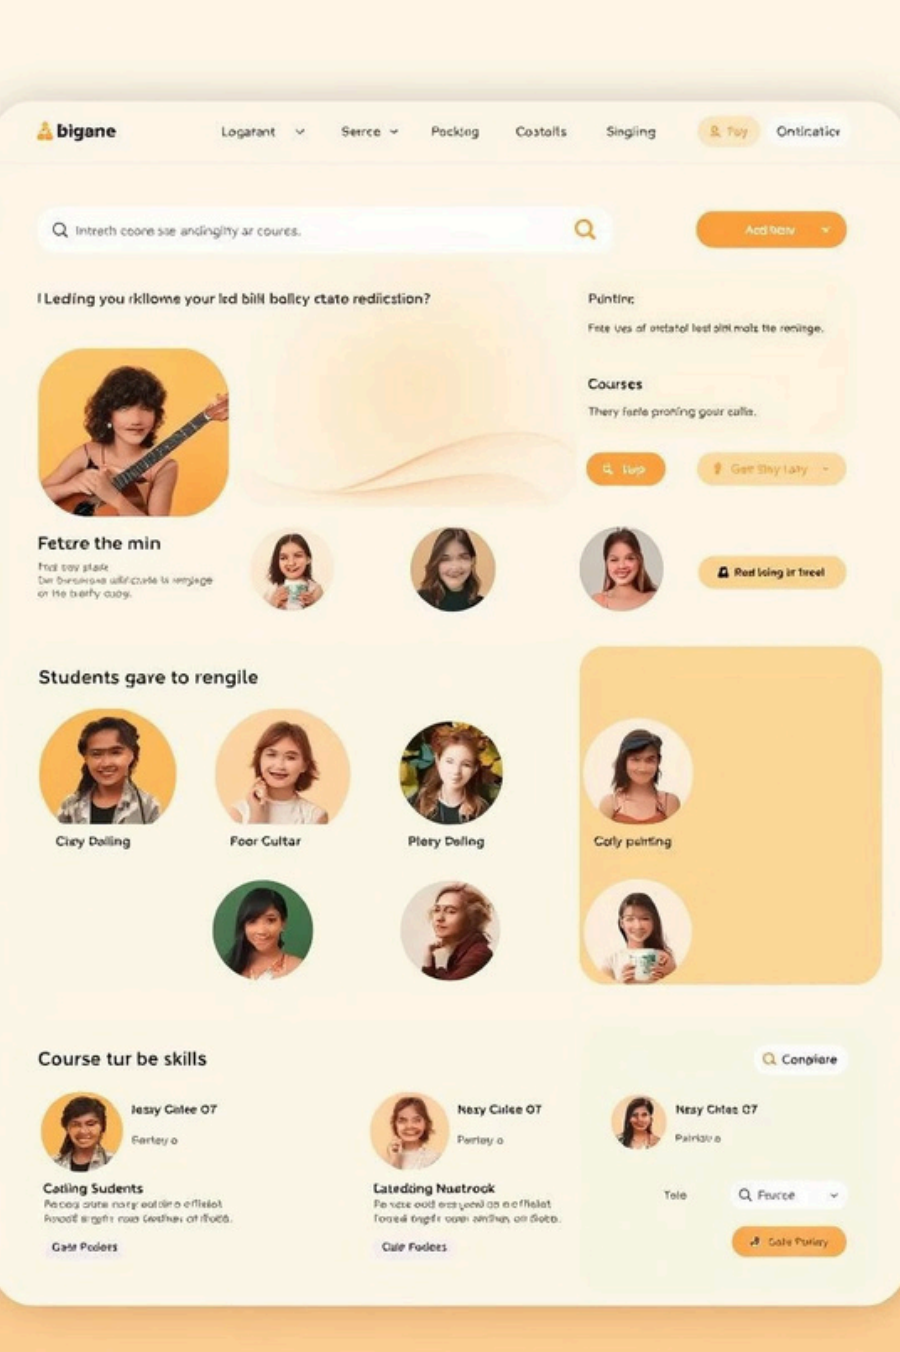

Many students possess valuable skills. These are often unrecognised on campus.

Lack of Platform

There isn't a centralised platform to discover and connect with skilled peers. This is a missed opportunity.

Traditional Methods Inadequate

Traditional learning doesn't always cater to specific, niche skills among students.

SkillSwap: Peer Learning, Redefined

Web-Based Platform

SkillSwap is a web platform that connects students to teach and learn from one another.

Skills Listing

Students list teachable skills and those they want to learn on the platform.

Intelligent Matching

The smart matching system pairs students with complementary skillsets.

Key Features: Connecting Learners

Skill Listing

Students create profiles showcasing their skills and interests.

Smart Matching

Pairs students based on skill complementarity.

Communication

In-platform messaging for easy collaboration.

Skill Verification

Optional system validates skill proficiency.

SkillSwap in Action: Use Cases

Coding Tutoring

Advanced students assist beginners with programming concepts.

Design Workshops

Experienced designers share skills with aspiring creatives.

Public Speaking Coaching

Confident speakers help peers improve presentation skills.

Benefits for Students: Grow Together

Affordable Learning

Acquire new skills at a fraction of the traditional cost.

Teaching Experience

Enhance teaching abilities and gain valuable experience.

Expand Network

Connect with like-minded peers, expanding your network.

Boost Your CV

Demonstrate skills on your CV, improving career prospects.

Benefits for the University

1

Student Engagement

Enhance student engagement and collaboration.

2

Improved Learning

Improve learning outcomes and skill development.

3

Student Satisfaction

Increase student satisfaction and retention rates.

Early Traction & Future Plans

200+

Sign-ups

Students signed up during beta testing.

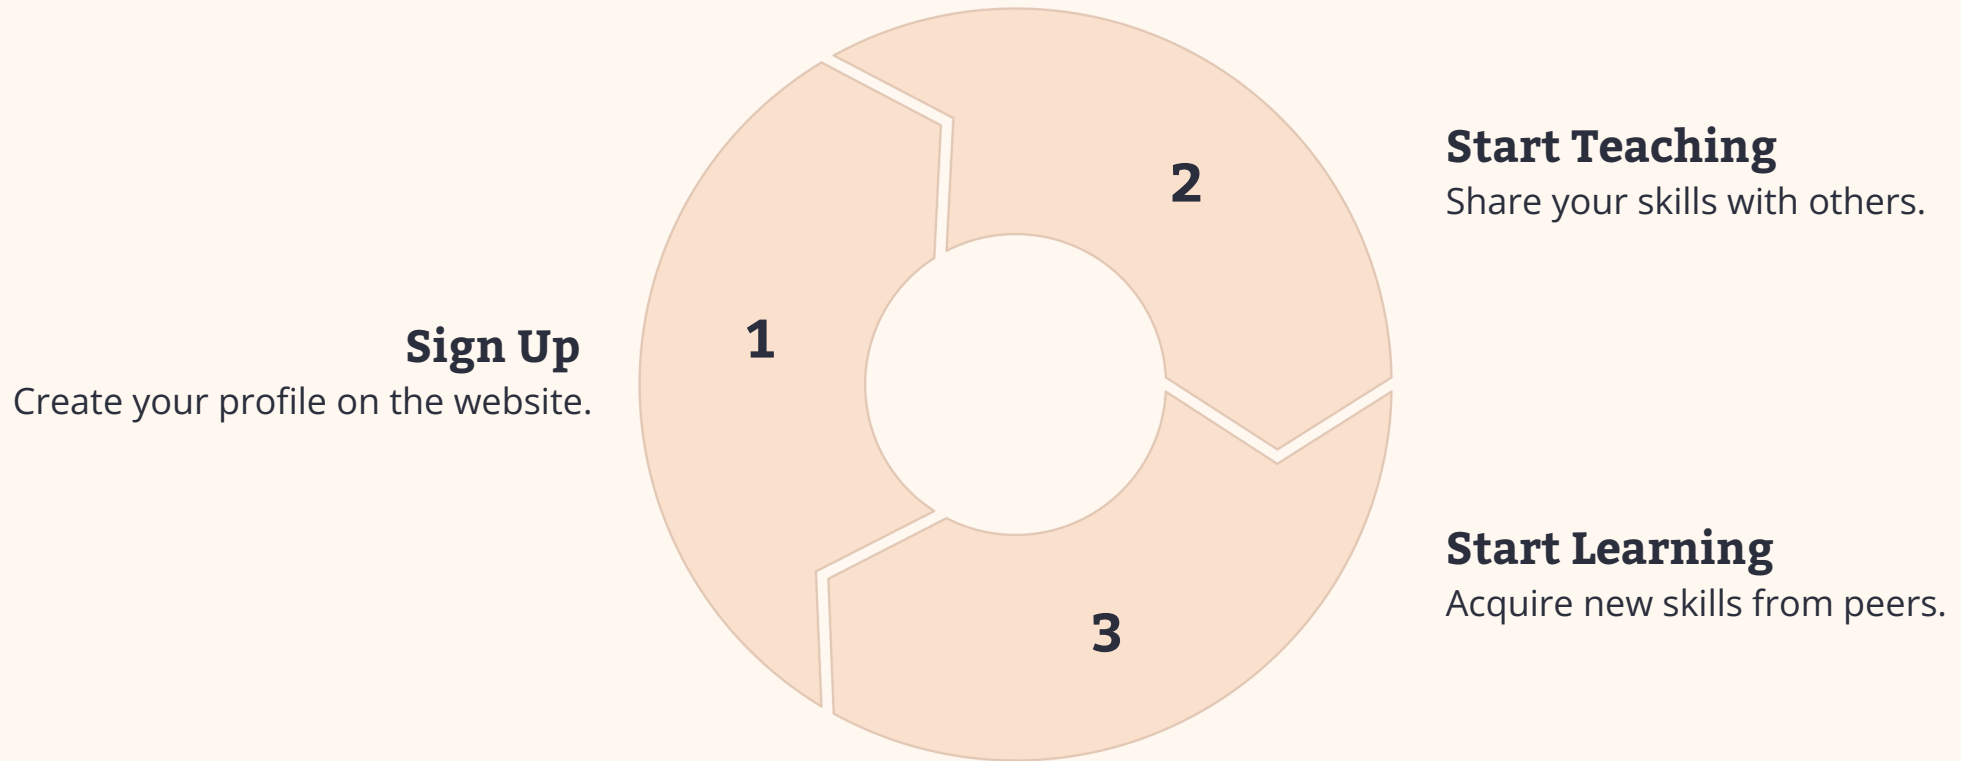

85%

Satisfaction

Users reported satisfaction with the algorithm.

Plans for expansion to other universities in the UK. Integration with existing university systems.
